

Information to Participate in the 2016 Annual Drinking Water Testing Program

A partnership between the Town of York, Town of Washington, and Green County UW-Extension

Thank you so much for your interest in the drinking water testing program! Here's some more information about participating in the program.

Next Steps

1. Consider which tests you would like to do. The attached documents have more information on general recommendations. If you would like to discuss the options in more detail, I am more than happy to talk with you about this! You can also make a decision when you pick up the bottles.
2. Pick up the bottles. You can pick bottles up at the following times and locations:

Bottle Pick Up

- **Thursday, March 10**
UW-Extension Office: 7am-6pm
- **Saturday, March 12**
Washington Recycling Center (at the intersection of Church Rd and Hwy C): 9am-12pm and 1pm-3pm
UW-Extension Office: 8am-12pm
York Town Hall: 10am-12pm

Please note that you will need to pay for your bottles when you pick them up. There will be directions on how to take the sample with your bottle.

3. Take your sample and drop the bottle off. Samples must be taken on Monday, as they are only viable for a short amount of time before they need to get to the lab.

(continued)

Bottle Drop Off

- **Monday, March 14**

Washington Recycling Center (at the intersection of Church Rd and Hwy C):

6am-12pm

UW-Extension Office: 7am-6pm

York Town Hall: 10am-12pm

Results

You will receive your results in the mail approximately 3-4 weeks after March 14. **There will be a (free and optional) educational session on April 26 at 6pm at the Green County UW-Extension office in Monroe.** At that educational session we will cover some groundwater basics and discuss how to read the results of your sample. If you have any questions about the results, a groundwater specialist will be on hand to answer questions.

Again, thank you for your interest in the drinking water testing program! Please contact Victoria Solomon at Victoria.Solomon@ces.uwex.edu or (608-328-9440) with any questions.
