

## **Tips for County Fair Exhibitors**

The county fair . . . what a great time it is! Every summer, families flock to county fairs to see the latest 4-H project exhibits. Exhibiting is a fun way for you to showcase your project work. When you enter a block printing exhibit at the county fair, you'll be showing the public, and the judge, what you've learned in the project. Make your exhibit the best it can be.

### **Here are some tips:**

1. Show that you clearly understand the printing process by including some block and preparatory sketches with your exhibit.
2. Ink should be applied in a thin, even layer.
3. Printed edges should be clean.
4. There should be no smudging or fingerprints on your exhibit.
5. Any mirror-image letters should be printed clearly and deliberately.
