## WHY YOUTH IN GOVERNANCE?

Youth leadership development is critical in building civic capacity and long-term community sustainability in Racine County. Programs that teach useful skills and build the self-confidence of young people ensure capable, effective leaders for the next generation. In addition, recent national trends including an increase in youth civic service and new emphasis on civic education in schools indicate a growing need for leadership training to ensure young people are prepared to participate in political and civic life.

Racine County and Racine County government value the youth of our community. In response to the lack of leadership opportunities for Racine County youth, the Racine County Board of Supervisors developed and continue to support the Youth In Governance (YIG) program.

## PURPOSE

The purpose of the Youth In Governance program is to create a model of youth empowerment within Racine County, through direct participation in local government. The overall goal is to bring the youth voice to community issues and concerns while fostering the development of confident, independent, and motivated youth leaders.
