

STUDENT QUESTIONS

Objective:

The following questions have been developed to explore students curiosity and allow for creative thinking and problem solving. Please use these questions as a guideline and add others as you see fit. The answers will be collected and displayed along with your hotel at Farm Technology Days.

All answers will be accepted.

Students are welcome to write their own answers or develop answers with the entire class/project team!

- A. How many bees do you think will visit your hotel?**
- B. If you were going to provide other amenities what would they be?**
- C. Share information and reasoning about the design and materials used.**
- D. What other insects might live here besides bees?**
- E. Why is this the best bee hotel ever designed?**
- F. How will your hotel help the pollinators?**
- G. What is your favorite food that needs bees to grow?**
